## ACQUARIA IMPREGNANTE COLORATA

Water finish for coloured wood

### DESCRIPTION

ACQUARIA IMPREGNANTE COLORATA is a colored water-based finish for wood for interiors and exteriors. The product is suitable for the treatment of all wooden articles requiring excellent resistance to atmospheric agents, ultra violet rays and does not alter the appearance and grain of the wood on which it is applied.

ACQUARIA IMPREGNANTE COLORATA is easily applied with excellent dilatation that allows you to follow the appearance and grain of the wood without leafing maintains a uniform color. It also has a rapid drying as well as having a very low environmental impact.

### APPLICATION

#### New Wood:

- Sand to remove any raised wood flakes.
- Clean the surface and check that the wood is not damp.
- grouting imperfections with PASTA STUCCO. Sand the grouting and remove the dust.
- After 6-12 hours, brush or spray the application of 2 coats of ACQUARIA IMPREGNANTE COLORATA, ready to use (or with a 5% max of water). Mix the product thoroughly before use. Pass between the two hands of about 4-6 hours
- Avoid application in case of annealing less than 5 °c and above 30 °c, do not apply in case of relative humidity always higher than 85% and under direct sunlight or in case of probable rain.

#### Already varnished wood:

- Check the condition of the old paints. Remove the peeling parts or not perfectly adherent and clean carefully.
- Proceed as for the new wood surfaces from the second point onwards.
